Our mission

We are defining new ways of interaction between workers across the globe.

We help companies to embark on an industrial transformational journey providing cutting-edge technology developed to empower workforce in field maintenance and manufacturing day-to-day activities.

AR technology allows remote workers to rapidly diagnose, inspect, operate and manage assets in the toughest locations: hazardous areas, industrial environments, offshore platforms and remote sites.

A unique solution for any industry

Some of our customers

kiber.tech

What our customers say

There is no doubt in my mind that this is the technology of the future and I am pleased that RINA is in a position to maintain business continuity for our marine customers during this challenging time,

Nello Sulfaro

Managing Director

@ RINA Group

This is a crucial milestone for the ongoing development of our innovative turbine technology and an important step forward in the on time delivery of Arctic LNG 2, which continues to be on track despite COVID-19 challenges.

Rod Christie

Executive VP, Turbomachinery &

Process Solutions @ Baker Hughes

For the d'Amico Group, the safety of crews, shore personnel and ship operations is a priority. Applying technology to the shipping industry, at this time more than ever, proves to be essential.

Salvatore d'Amico

Fleet Director

@ d'Amico Shipping Group

Benefits

EFFICIENCY

- Production continuity, with **no downtimes** to processes
- On-field assistance, testing, training and **inspections cost reduction**
- Cost and time to **travel cost reductions**

PRODUCTIVITY

- Diagnostics & troubleshooting **remote**
- **Training** with session recording
- Maintenance operations , inspections and testing remote

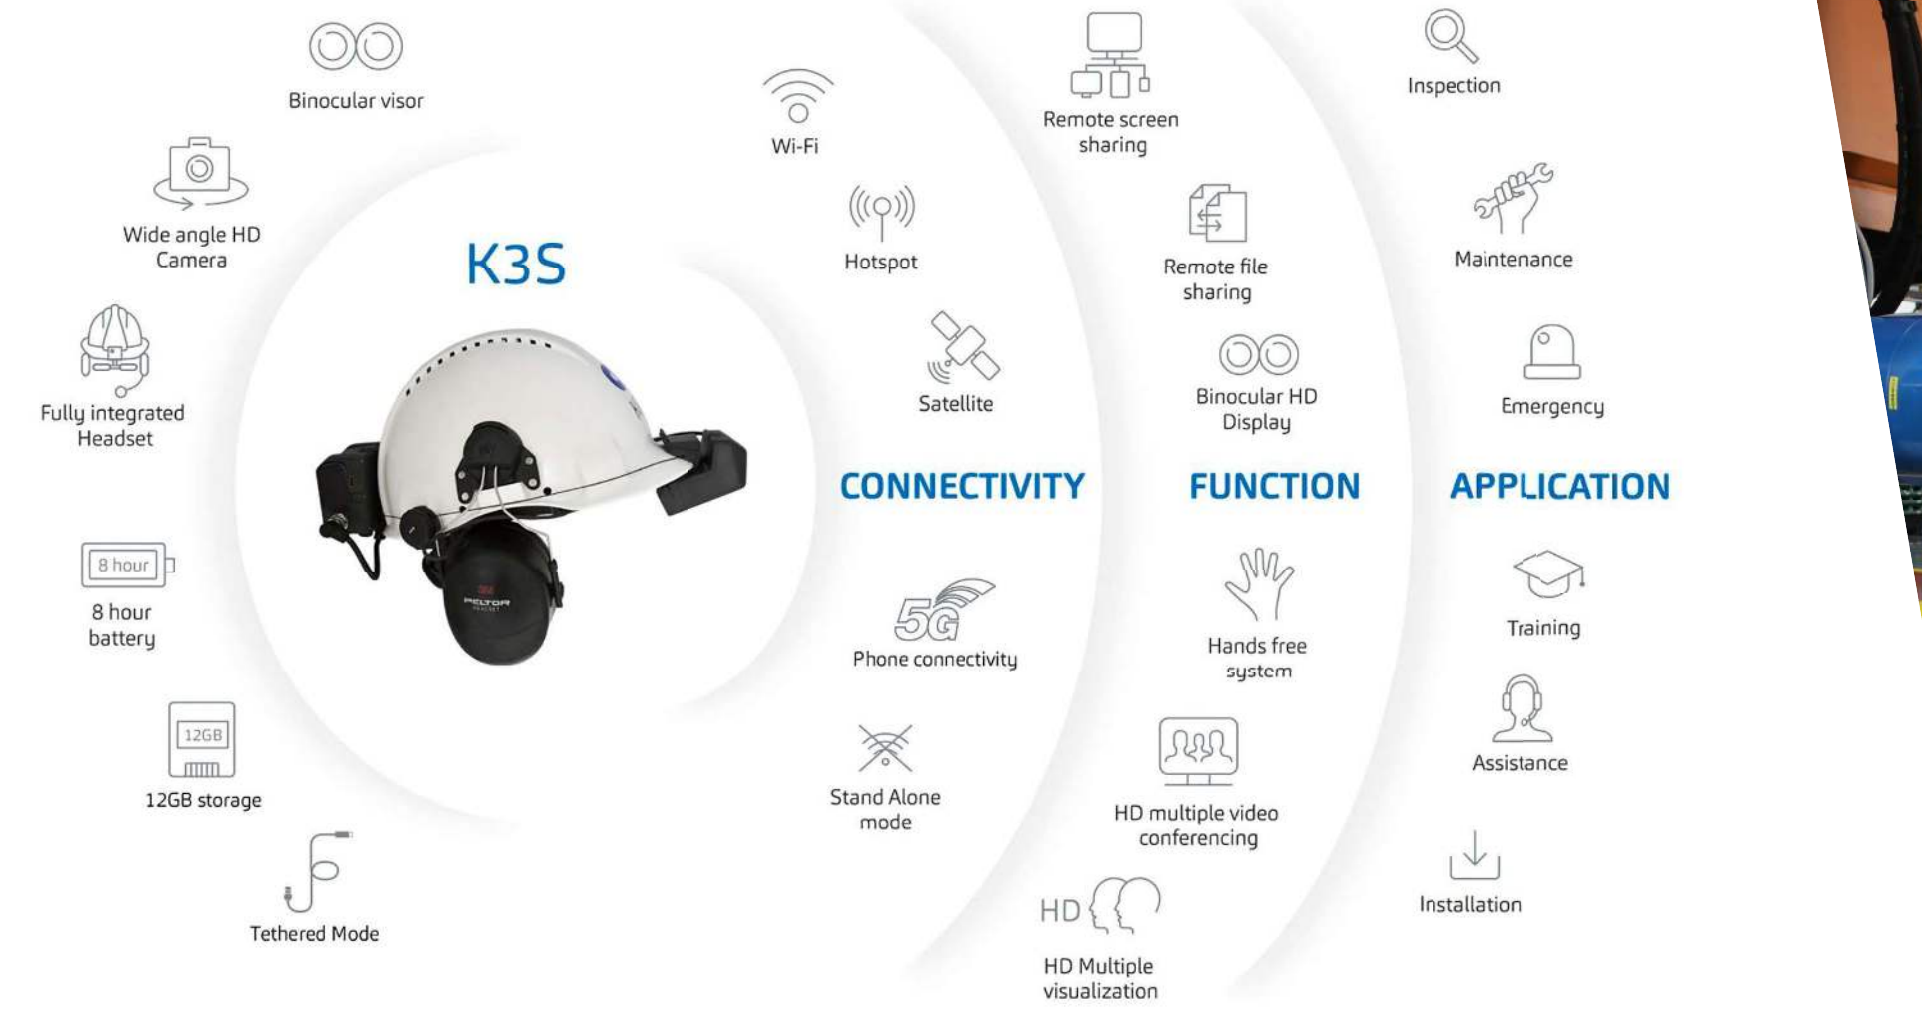

SAFETY

- Remote emergency inspection and intervention
- Fewer people involved in hazardous environments
- Atex Zone1 certification, to support on-site workers in potentially explosive atmospheres

Kiber is a hands-free, plug&play solution, designed to fit the needs of the Industry.

- ✓ Remote Inspections
- ✓ Diagnostics & Troubleshooting
- ✓ Maintenance operations
- ✓ Remote Assistance & Training
- ✓ Emergency intervention

Kiber 3S is an all-in-one solution

Delivering a smart, efficient and easy-to-use technology tool to customers

Kiber 3 Web

The powerful web-based platform for remote collaboration.

Kiber 3S Kit

The multi-feature wearable hands-free device empowering field workforce.

Kiber 3 Field

The easy-to-use mobile app, for iOS and Android, to connect workforce.

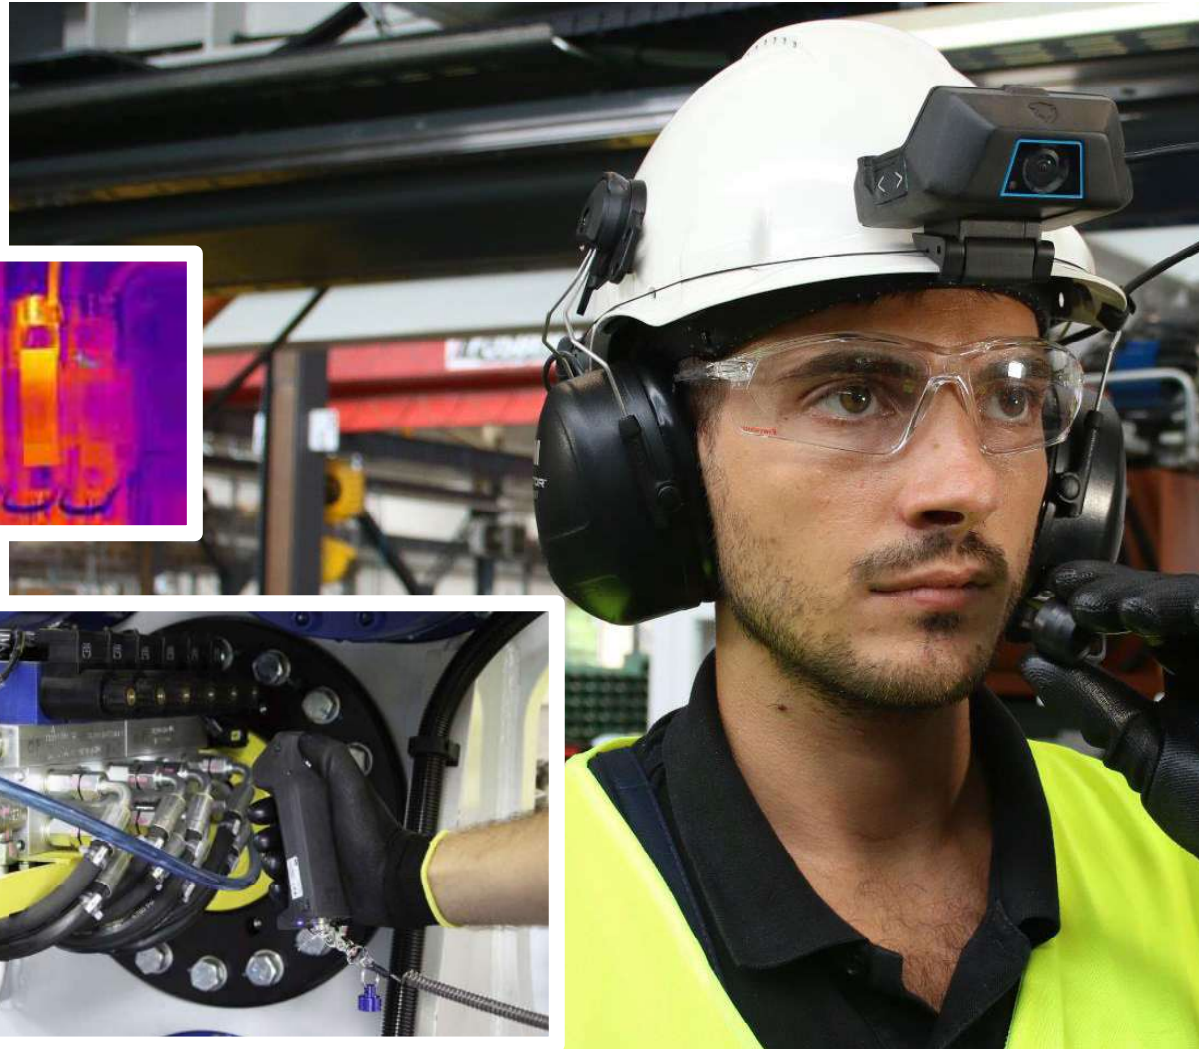

kiber.tech

Kiber 3S Kit

The multi-feature wearable hands-free device empowering field workforce

Designed to perform and satisfy the real needs in remote working operations

- **Removable Binocular Visor**

Designed for low eyestrain with high quality display resolution

- **Wide Angle Camera**

Clear and steady vision of on-site environment with a 150° field of view

- **Fully Integrated Headset**

Perform efficient communication in noisy environments

- **6-8 H Long Life Battery**

Reduce time pressure in solving emergency situations

- **12GB Local Storage**

Access documentation anytime in stand-alone mode

Wide range of accessories to satisfy any business need

kiber.tech

Kiber 3 Web

Get your best expertise on spot with a safe and performing solution.

Kiber 3 Web allows remote users to live the on-site situation as if they were present and give live support to field workforce

- Shared Space Collaboration
- Live Annotations
- Remote Screen Sharing
- Multiple Video Conferencing
- Session Recording with export the entire video session or a condensed version that only includes the parts of interest

Kiber 3S is easy-to-use both for field workforce and for remote users that can connect from their desktop with no additional software installation.

Remote users live the situation on-site as if they were present and on-site workers receive timely and qualified support through different possible interactions.

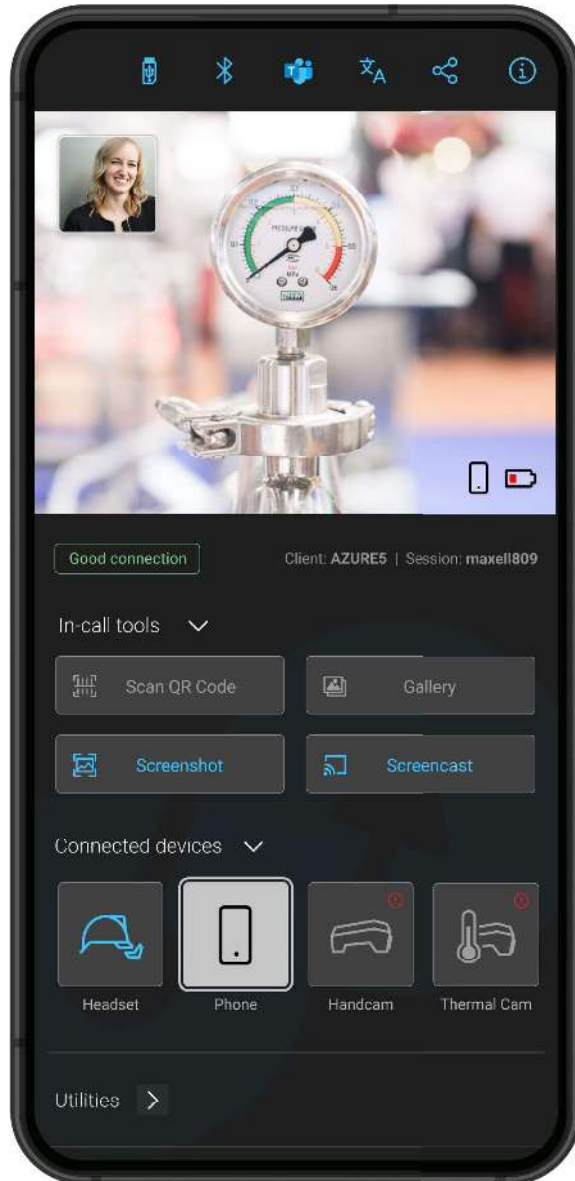

kiber.tech

Kiber 3 Field

The easy-to-use mobile app to connect workforce

Kiber 3 Field has unique features to support remotely field workforce in completing challenging tasks

- Real time multiple expert assistance
- Quick connect with team's members
- Easy interaction between users
- Audio/Video live streaming
- Screensharing & screenshot annotations
- AR-based digital annotations
- Multiple Video Conferencing
- Shared collaboration space
- Support to K3S companion mode

Integrations and automations with your systems

SEAMLESS SMART SOLUTIONS

Kiber K3S interacts with assets, equipment and the systems you are using today.

Our solution supports easy integration with MDM/ERP/CMMS/WFM and other enterprise software.

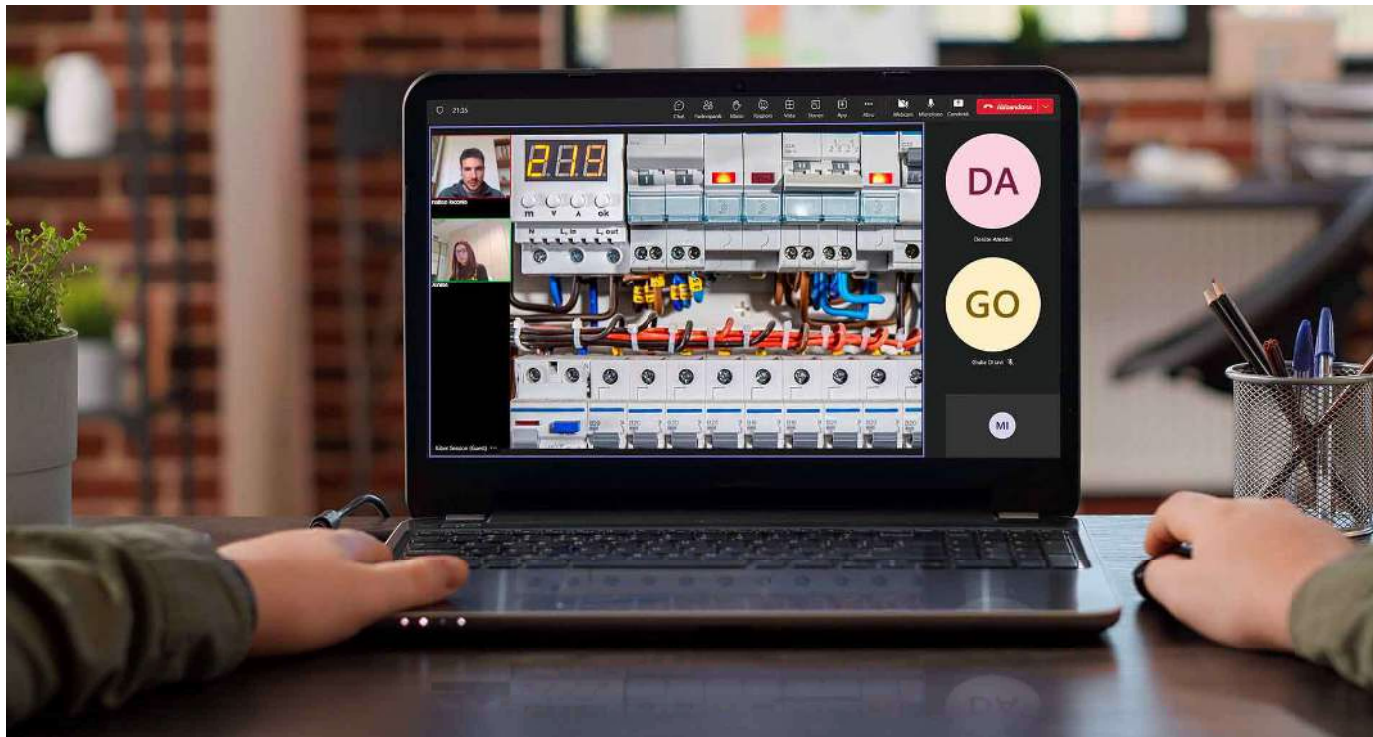

When tethered with an Android smartphone, K3S delivers all its potential opening a new world of digital experience in 5G

kiber.tech

Kiber & Microsoft Teams™

Take a step towards a more efficient, sustainable, and interconnected remote workforce

- ✓ Improve collaboration
- ✓ Enhance productivity
- ✓ Reduce downtime
- ✓ Increase efficiency
- ✓ Promote sustainability

A thorough integration that merges MS Teams and Kiber functions, increasing the usability of the two systems by combining both business propositions.

kiber.tech

The tools your field workers need to work smarter

Supply the machine operators with important data on the status of the machine

- Easy integrate AR/XR and IoT devices, allowing them to communicate dynamically and in real time
- Augmented reality for remote support + control & monitoring.
- JavaScript API is provided for the overlay of sensor data dashboard on the augmented reality view
- Place your data where you need it, when you need it, customise rendering logic, avoiding visual cluttering
- Scan a QR / Marker and synchronise with your field equipment
- Customise the dashboards depending on your need
- Increase the safety of your operations and the environmental awareness by monitoring your actions in real time

kiber.tech

Our strenghts

Kiber 3S is designed to perform efficiently thanks to its unique features

- ✓ User friendly All-in-One solution
- ✓ Vision wide angle
- ✓ HD binocular visor
- ✓ Hands free system
- ✓ Long life battery
- ✓ 12 GB storage for offline usage
- ✓ Up to 11 remote users
- ✓ Unlimited access to all the Android ecosystem
- ✓ Ms Teams Compatible
- ✓ Easy integrable with ERP, CMMS, WFM systems
- ✓ Cyber safe
- ✓ Securely manageable through MDM process

Why Kiber

+ 50 %

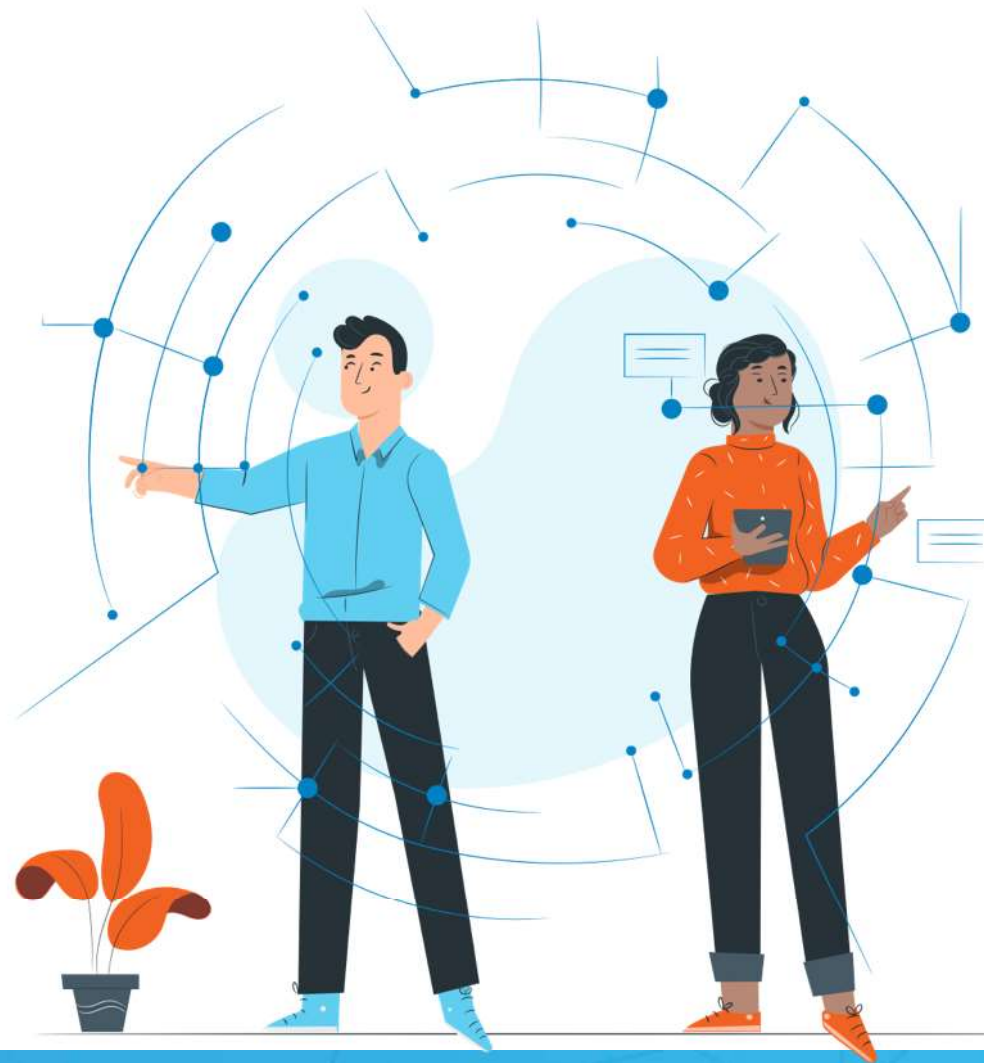

Speed up Diagnostic
& Inspections

+ 30 %

Higher quality
output

+ 30 %

Increase operation
safety

+ 50 %

Increase overall
efficiency

+ 50 %

Faster training
time

Indicative (up to) benefits achieved with solution.
Results depend on business and application field.
